High-Quality Content With a Budget-Friendly Price Tag

BioOne was founded by independent publishers and librarians in 1999. Today, BioOne Complete policies and pricing are designed to sustainably deliver critical research in the biosciences to a worldwide user base.

Benefits for Library Partners

AFFORDABLE: Tiered pricing and discounts via 40+ consortia

EFFICIENT: Access a critical mass of content with a single subscription

SUPPORT FOR STRATEGIC RESEARCH: Trusted content on the impacts of climate change on global ecosystems; research relevant to many of the United Nations' SDGs

FLEXIBLE: Anytime subscription starts plus a new one-time purchase option

MISSION-ALIGNED: Over \$63 million in subscription funds have been returned to BioOne publishing partners and re-invested in sustainable scholarly communications. In addition, 33 open access titles are available alongside the subscribed collection

Valuable Features and Tools

POST-CANCELLATION ACCESS provided at no cost for subscribed content

REMOTE ACCESS to support on and off-campus users

ENHANCED ACCESSIBILITY via Google Translate

INTEGRATED DISCOVERY via MARC records and 15+ indexing and discovery partners

SEAMLESS REFERENCE TOOLS compatible with EndNote, RefWorks and more

USAGE ANALYTICS via COUNTER 5-compliant statistics and SUSHI harvesting

“BioOne Complete is a great research tool for our biology program! It offers amazing scientific focused content, which is very useful for the life science courses and professional research by our students and faculty.”

Aida Almanza

Arts & Sciences Librarian
Texas A&M University-San Antonio

Choose the Right License for Your Users

BioOne is committed to broad access to scientific research, and we are pleased to now offer **two cost-effective licensing options** to meet the needs of all institutions.

	Annual Subscription	BioOne Complete Archive
Access ¹	Current & backfiles	Subscribed backfiles
Dates covered ²	1965—present	1996—2018 ³
Scope	200+ titles, 150+ publishers, 208k+ articles	170+ titles, 120+ publishers, 140k+ articles
Continuing access	Content published during subscription	Purchased archive content
